

Mrs. Zurita's First Grade Newsletter

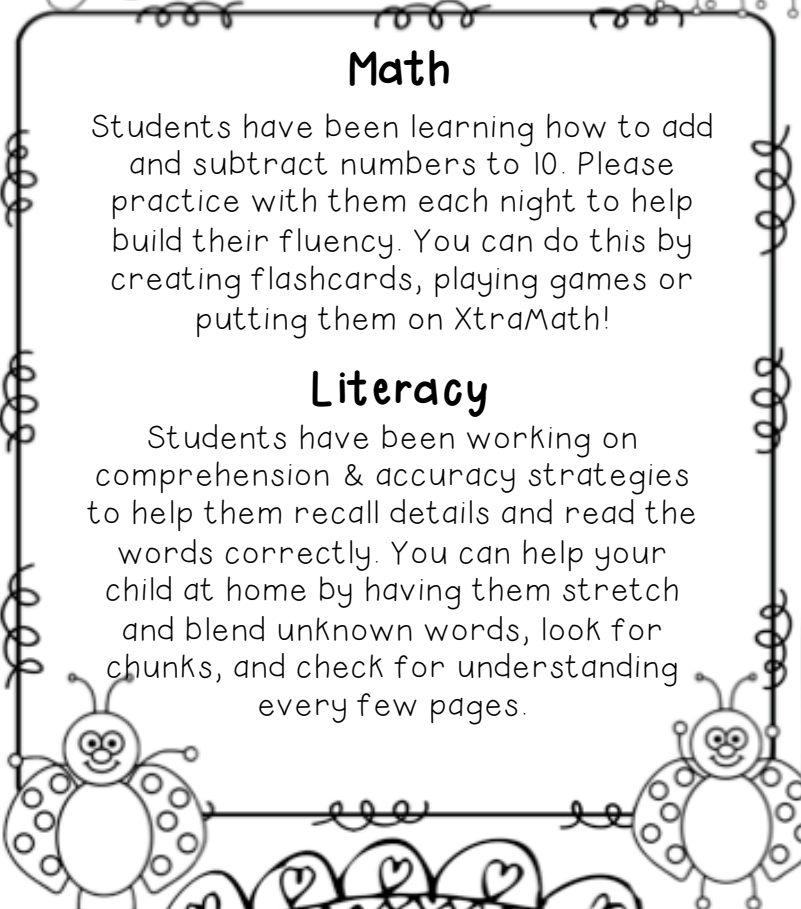

Math

Students have been learning how to add and subtract numbers to 10. Please practice with them each night to help build their fluency. You can do this by creating flashcards, playing games or putting them on XtraMath!

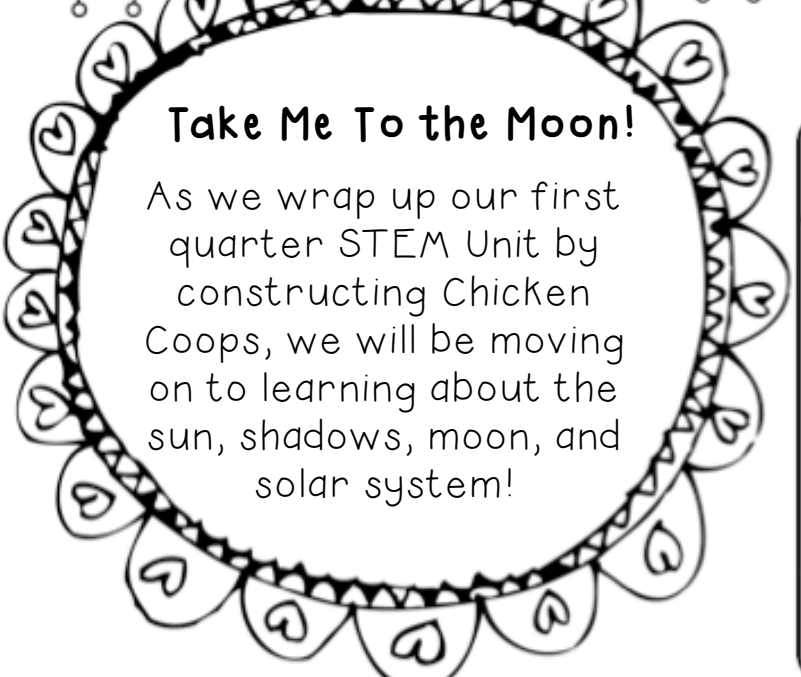

Literacy

Students have been working on comprehension & accuracy strategies to help them recall details and read the words correctly. You can help your child at home by having them stretch and blend unknown words, look for chunks, and check for understanding every few pages.

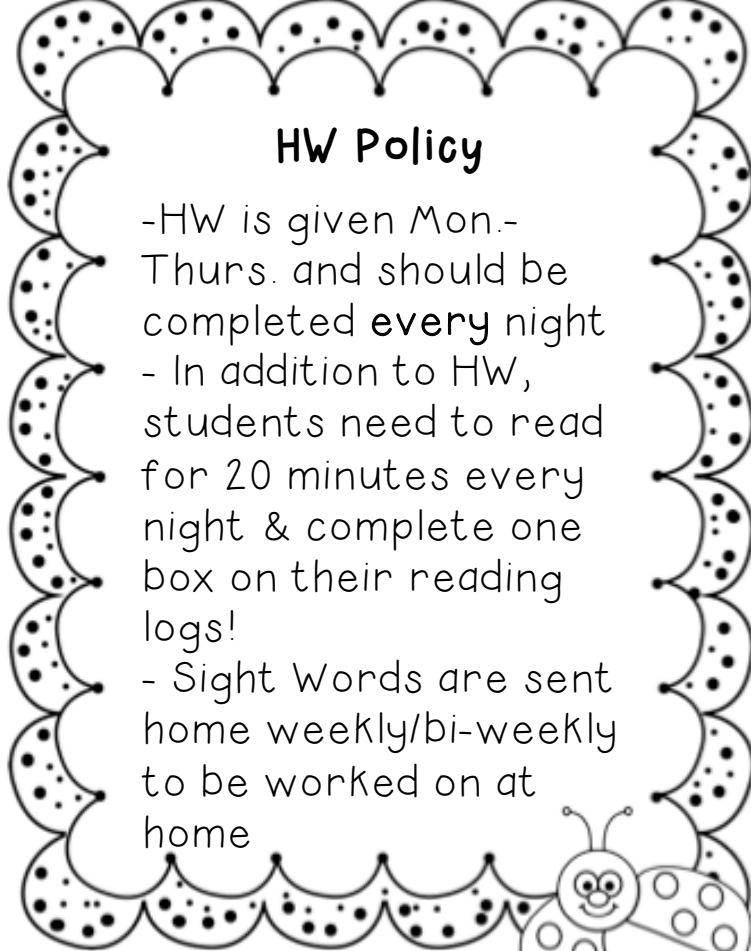

Take Me To the Moon!

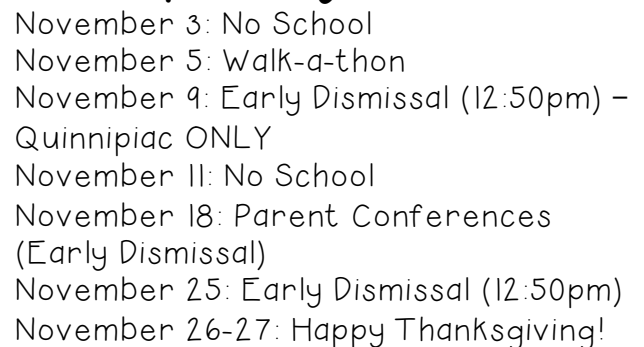

As we wrap up our first quarter STEM Unit by constructing Chicken Coops, we will be moving on to learning about the sun, shadows, moon, and solar system!

HW Policy

- HW is given Mon.-Thurs. and should be completed every night
 - In addition to HW, students need to read for 20 minutes every night & complete one box on their reading logs!
 - Sight Words are sent home weekly/bi-weekly to be worked on at home
-
